The Chartcraft®

METHOD IS NOW ON ELECTRONIC COMPUTER

*Covers all NYSE and ASE Stocks—Giving You:* Full Name of Stock • Reference Point (Last Entry On Chart) • Recordable Price Changes (Daily Price Changes) • Buy or Sell Signals • Price Objectives • Stop-Loss Points • Relative Strength Figure.

Now after two full years of programming for the electronic computer, you will be able to receive each week, the all new 12 page Chartcraft Weekly Service by Electronic Computer. The complete Chartcraft Method of Point and Figure Trading has been programmed and we can now give to our subscribers highly accurate, complete, and timely 3 box reversal point and figure information.

You get clear, unhedged advice when you subscribe to the Chartcraft Weekly Service. We may not be right all the time, but you don't have any "ifs, ands or buts" when we tell you the market is going up or down. You can compare your holdings to our weekly reports to see price objectives and stop-loss points, buy and sell signals. See what the P&F charts say about your stocks.

Chartcraft is one of the largest Point and Figure Service publishers in the country, serving both the trader and investor with precise market information for over 20 years.

***4 WEEK TRIAL AND CHARTCRAFT METHOD BOOK ONLY $10***

When you take a 4-week $10 trial to the Chartcraft Weekly Service we will also send you as a bonus, by First Class Mail, the 112-page best selling Chartcraft Method book. This book regularly sells for $3.95. Just send your check today—$10 for a 4-week Trial—to CHARTCRAFT, INC., Dept. FW-80, 1 West Ave., Larchmont, N. Y. 10538

N. Y. City add 5% tax, N. Y. State 2%.

# INVESTORS INTELLIGENCE

Investors Intelligence is one of America's most widely read consensus reports. This unique investment service is a comprehensive and authoritative summary of outstanding features as reported by leading investment services, private newsletters and the financial press.

Investors Intelligence combines the fundamental and technical approaches to investing. Each issue contains a P&F chart of the Top Ten Stocks with fundamental information and advice.

Published every other Wednesday, you get our editor's fundamental and technical selection—two stocks selected for their immediate profit potential. Other features include a Technical Review of Penny Stocks, the short and long term market outlook, excerpts from the leading advisory services, a review of previously recommended issues, trend analysis by industry groups, and other pertinent information.

A most popular feature reviews the Dow-Jones Industrial Average chart and projects the future moves.

Each report concludes with a compilation of the buy, sell and hold recommendations made by the major advisory services on over 80 of the most active issues.

This offer is for new readers only, and not for those who have taken advantage of this free trial previously. This offer expires January 31, 1968. You must include this ad with your request.

For your FREE 2 month (4 issues) trial subscription to this unique investment report, just send this ad with your name and address to Investors Intelligence, Dept. FW-65, 2 East Avenue, Larchmont, New York 10538.

# If you're not using Zip Code

# you're not getting your nickel's worth

When you plunk down a nickel for a stamp, you *should* get the world's most efficient postal service in return.

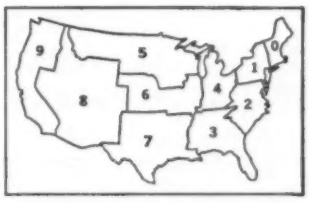
But—if you haven't added the Zip Code to the mailing address, you may not get all you are paying for.

Because Zip Code makes it possible for postal workers to sort mail faster and deliver by more direct routes. With Zip, they will use new electronic machines that "read" Zip numbers and sort mail fifteen times faster than was possible before!

That is why Zip Code is now the most important part of any mailing address. *Always use it on every letter you write.*

Include your own Zip in your return address, too. That makes it easy for others to Zip their mail to you. When you don't know a Zip Code, simply call your post office or look it up in their Zip Code Directory. Local Zip Codes can be found on the Zip Map in the business pages of your phone book.

It is so easy to use Zip Code. And when you do —you know you are getting your nickel's worth!



**HOW ZIP CODE WORKS**

Suppose the Zip Code is 60635. The "6" says it goes to the Midwest. The "06" narrows it down to Chicago. The last two digits—"35"—pinpoint the local post office. This eliminates many handling procedures. The letter is sorted faster, and sent more directly to its destination.

*Mail moves the country—ZIP CODE moves the mail!*
